“Phenomenal line-up!!! Great diversity of topics that covers almost every aspect of RE investing!!! This type of meeting represents a combination of networking and education at its best. This has even more huge value for many newer investors, especially those who are somewhat shy, who would otherwise not get the opportunity to get one-on-one answers from experienced local experts. If I were not a speed networker myself, I would line up to absorb wisdom from everyone on the list. DIG membership is already the most cost-effective investment a local investor can make. This event enhances the DIG membership decision as a slam dunk! “ Marc Halpern
